Greater Kuala Lumpur, Malaysia | +60 123 26 9095 | nikhilerukala99@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of progressive experience building dynamic, responsive web applications using React.js, JavaScript, HTML5, CSS3, Node.js, and Python. Experienced in AI-assisted development workflows using tools like Cursor, Windsurf, v0 by Vercel, and Claude to accelerate delivery and maintain code quality. Proven ability to deliver scalable frontend solutions across multiple industries. Passionate about clean code, performance optimisation, and staying at the forefront of modern engineering practices.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, Tailwind CSS, Bootstrap, Flexbox, Responsive Web Design

Databases: MongoDB

Tools & Platforms: Google Analytics, Google Ads, WordPress, Git, REST APIs

AI-Powered Dev Tools: Cursor, Windsurf, v0 by Vercel, Claude (Anthropic) — leveraged for accelerated UI scaffolding, code generation, and intelligent code review

Concepts: Component-based Architecture, SPA Development, AI-Assisted Development, Cross-browser Compatibility, SEO Best Practices, Agile/Scrum

Certifications: Introduction to Generative AI – Ministry of Digital Malaysia & Intel Digital Readiness (Jan 2026), Digital Marketing Certification, React JS, JavaScript Essentials, Responsive Web Design (Flexbox), Build Your Own Responsive Website

PROFESSIONAL EXPERIENCE

Frontend Developer

CREATIVE MOBILE MULTIMEDIA BROADCASTING (CMMB) SDN. BHD

December 2025 – Present

Kuala Lumpur, Malaysia

- Single-handedly developed an enterprise-grade Firewalls management website from the ground up using WordPress and JavaScript, delivering a fully functional platform enabling network administrators to monitor and configure firewall rules in real time.
- Built and customised dynamic, responsive user interfaces with JavaScript, ensuring a seamless and intuitive experience for both technical and non-technical administrators.
- Executed a comprehensive on-page SEO strategy — optimised meta tags, structured headings, semantic HTML, keyword-rich content, internal linking, and page load improvements — resulting in measurably better search engine visibility.
- Implemented off-page SEO initiatives including backlink building, directory submissions, and content outreach to strengthen domain authority and organic reach.
- Optimised Core Web Vitals (LCP, FID, CLS) through image compression, caching strategies, and script optimisation, improving Google rankings and user retention.
- Managed the full project lifecycle independently — from planning and design customisation through development, deployment, and post-launch SEO monitoring — demonstrating strong ownership and end-to-end delivery.
- Leveraged AI-powered development tools (Cursor, Windsurf, v0 by Vercel, Claude) to accelerate UI scaffolding, generate boilerplate code, and streamline debugging — staying current with modern AI-assisted engineering workflows.
- Stack:** WordPress, JavaScript, HTML5, CSS3, On-page SEO, Core Web Vitals Optimisation, Google Analytics, Cursor, Windsurf, v0, Claude

Frontend Developer – Nextenti Hiring Platform

NEXTENTI TECH PRIVATE LIMITED

May 2024 – November 2025

Hyderabad, India

- Led frontend development of an enterprise-grade AI-powered healthcare recruitment platform — one of the most widely adopted platforms for doctors in Hyderabad — connecting professionals with organisations across 19+ medical specialisations.
- Designed and implemented multi-role web applications for Candidates, Corporate Clients, HR Managers, and Administrators, ensuring seamless module integration and a consistent, role-tailored user experience.
- Built reusable and scalable React.js component libraries for dashboards, job listings, profile management, and AI-powered job search features, improving development efficiency and long-term maintainability.
- Implemented OAuth-based authentication and role-based access control (RBAC), enabling secure multi-tier login and authorisation across all user types.

- Delivered an AI-powered job matching feature that surfaces relevant opportunities to healthcare professionals based on specialisation and experience, directly improving recruiter-to-candidate placement efficiency.
- Integrated frontend with REST APIs built using Python and Flask; collaborated with backend engineers to ensure efficient data flow, stable performance, and pixel-perfect UI delivery.
- Optimised frontend performance for large job datasets and dashboard views, improving page load times and responsiveness across desktop and mobile.
- Utilised AI coding assistants including Cursor and Claude to accelerate component development, reduce boilerplate, and improve code quality through AI-assisted reviews.
- **Stack:** React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Python, Flask, REST APIs, OAuth, MongoDB, Git, Cursor, Claude

React JS Developer

June 2022 – April 2024

Kwikkoder-IT Solution

India

- Engineered a full-stack School Management System using React.js (Redux) and Python (FastAPI) with PostgreSQL, supporting attendance tracking, admissions, and fee management with role-based access control and full CRUD operations.
- Developed and deployed multiple WordPress websites with custom theme customisation, plugin configuration, SEO optimisation, and cross-browser responsive design tailored to diverse client requirements.
- Built reusable React.js component libraries and SPAs from scratch, significantly reducing development time for subsequent projects.
- Translated design mockups into fully functional, responsive web interfaces using React, JavaScript, HTML5, and CSS3.
- Integrated third-party APIs and services into client-facing applications, ensuring reliable data flow and smooth user experiences.
- **Stack:** React.js, Redux, Python, FastAPI, PostgreSQL, WordPress, JavaScript, HTML5, CSS3, Git

CERTIFICATIONS

Introduction to Generative AI

Completed: January 2026

Ministry of Digital Malaysia & Intel Digital Readiness Program

Digital Marketing Certification

NxtWave / Online

React JS, JavaScript Essentials, Responsive Web Design (Flexbox)

NxtWave CCBP 4.0

Build Your Own Responsive Website

NxtWave CCBP 4.0

EDUCATION

NxtWave

June 2022 – February 2023

Fellow, CCBP 4.0 Intensive Program – Full Stack Development

Online

Vardhaman College of Engineering (VCEH)

2019 – 2022

Bachelor of Technology

Hyderabad, India

Jyothisamithi Institute of Technology & Science

June 2015 – November 2018

Diploma, Electronics and Communications Engineering (ECE)

India
